Matrix

The imposing Matrix demands a presence in any boardroom, meeting and conference application. A clean and contemporary look with an aesthetic design. The Matrix incorporates a chrome frame which is stackable in both the four legged and cantilever options.

Matrix

The practical aspects of Matrix are continued here with a smaller back design. Sleek looking and practical Matrix is available in a cantilever or a four legged option. Matrix can be stacked for efficient re-configuration and storage.

Versa

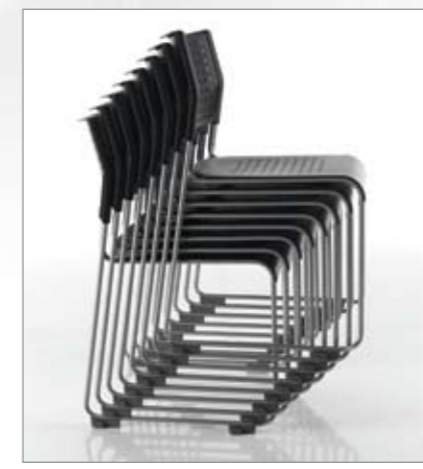

A flexible meeting and conference chair with a discreet linking facility integral to the skid frame option. Versa is available in a skid frame or four legged option with a writing tablet choice completing the family. Choose from either upholstered or non upholstered options.

FLIPPER

Flipper

Flipper is ideal for conference, training rooms or any application that demands a cost-effective, flexible solution. The flip-up seat can be upholstered in a wide range of fabrics and colours, and offers the added benefit of efficient space saving when not in use. Fitted with castors as standard. Optional lockable castors provide further functionality..

Dolly

Dolly is a flexible meeting and conference chair with an integral linking device. Lightweight in design and available in a range of polypropylene colours or upholstered seat and back options. A robust stackable meeting chair with a capacity to stack 35 high on a matching trolley for easy transportation. Dolly is ideal for a number of applications and provides a space saving solution to storage.

Only Polypropylene chairs stack, upholstered options non stacking.

Nile
Light weight and durable. Nile is a contemporary, comfortable and slim stacking chair with chrome frames. Ideal for breakout and café environments.

Sequel

Sequel offers modern square back styles with matching armrests or gentle rounded back designs with matching armrests. Sequel offers a writing tablet option for conference or training facilities.

TUDOR

Tudor

The Tudor is a robust and generously proportioned range of chairs. The contoured moulded seats benefit from an under seat pan to avoid foam imprints when stacked. The skid frame armchair is non stacking.

ELIN

Elin

A durable yet cost effective chrome frame armchair which benefits from an under seat pan to avoid foam imprints when stacked. Elin is a popular stacking armchair which will not compromise on appearance despite being competitively priced.

SONATA

Sonata

Sonata has a generously proportioned contoured seat, which ensures comfort on these silver frame conference/meeting chairs. The optional fitted castors enable the stacked chairs to be manoeuvred with minimal effort. Choose from the upholstered and non upholstered backrest options.

SL827A(ubp)

TULIP

Tulip

Tulip is a robust stacking chair with a simple linking device as standard making this range a natural choice for training and conference environments. Optional features include armrests and left or right handed writing tablets.

Fitted with integral linking device.

Eclat

The Eclat is specifically designed for multipurpose use and is extremely good value with comfort and durability. Stackable and available with armrests and a writing tablet option coupled with an optional chrome frame.

E65C

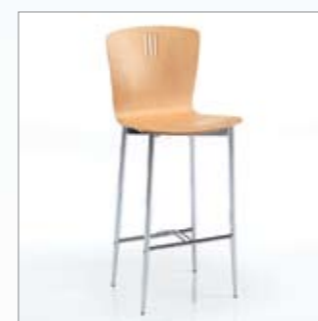

Eclat

These traditional chrome cantilever chairs offer reliability that still remains a popular choice for both meeting and conference use. The Eclat is stackable and available as an armchair option.

Bistro

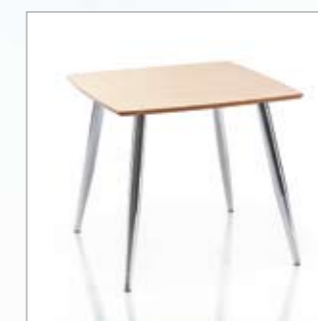

Bistro brings a mix of contemporary and classic design to cafeteria and breakout areas. A variety of coloured shells are available on robust tubular chrome frames. A choice of beech tables complete the Bistro range.
