# POSTURE SEATING

Rigorous study and testing was undertaken at the AHRU in Preston, with the aim of looking at the effects of certain ergonomic posture chairs in this range on peak seating pressure and spinal alignment, against a standard office chair.

The biomechanical data was collected and these Ergo Design® products were found to perform by the scientists at the AHRU. Specifically, spinal alignment is improved through the pelvic tilt, as well as reducing peak seating pressure.

**ERGO DYNAMIC** Synchro mechanism, seat slide, independent tilt, inflatable lumbar, 5D armrests and height adjustable backrest.

ED1-A5

ED2-A5 CSB

ED1-A5 BAB

ED2-A5 CSB

## FLEXI

**Minimalist design meets maximum flexibility.** An integral linking device on the frame helps create safer, structured lay-outs for larger seating areas. The integral stacking peg allows 20 chairs vertically stacked with a gap between chairs to avoid scratching frames or damaging seat upholstery.

Stocked in black with black frames & other colours available to order. Enhance comfort with a seat pad or seat & back pad for longer periods of sitting.

FLEXI BF

FLEXI BF (SP)

FLEXI BF

FLEXI BF (SBP)

## BEAM SEATING

An unrivalled range of high quality seating solutions dedicated to improving your working environment.

### Why choose us?

**Continuity.** The result of 20 years of organic growth. We are an asset strong business with no reliance on external funding. This allows a long term development programme in line with changing market demands and provides clients with on-going reassurance of continuity.

**Corporate Social Responsibility** is naturally embedded in to the PSI ethos. We ensure equal opportunities, make charitable donations, support local employment, advocate employee training and have partner relationships with key customers and suppliers which drive our ongoing product development and productivity.

**Service levels** are achieved with quick reaction manufacturing times and efficient national delivery coverage. This enables us to maintain a high level of service from point of order to delivery of goods. Our experienced and accessible internal and field based sales team are on hand to advise and help our customers through the specifying and ordering process.

**Environmental issues** constitute an increasingly significant part of our business. At the point of design, the use of any components, solvents or sealants with environmentally unfriendly properties or by-products are minimised or eliminated. We also regularly review our waste management, packaging, transport management and energy consumption to both reduce negative impacts on the environment and maintain operational efficiencies.

We pride ourselves on reducing costs for our clients so that they can offer an enhanced working environment, improve brand identity and increase staff productivity and morale.

PSI are proud to state that we are certified to **ISO 9001: 2008** quality management standard. As a result, current and prospective customers can feel confident they are dealing with a professional organisation who provide a consistent level of high quality products and customer service.
