

# TIDE

# TiDE

A high density stacking chair suitable for use in all public buildings. The **TiDE** chair is comfortable, tough and easy to handle.

**TiDE** incorporates a classic chrome sled frame made from high tensile 12mm steel wire.

A contoured seat and back complete the chair, moulded from recycled polypropylene and finished with a matt sheen.

The **TiDE** chair also employs polycarbonate stacking blocks to facilitate storage and linking clips to assist in the arranging of multiple chairs.

Available in 4 colours, this exquisite meeting chair is ideal for conference rooms, schools, universities, dining areas, common rooms, breakout areas and most other office environments.

Every component that is utilised in the manufacture of the **TiDE** chair is 100% recyclable.

The **TiDE** chair has been tested to industry standards for strength, durability and safety.

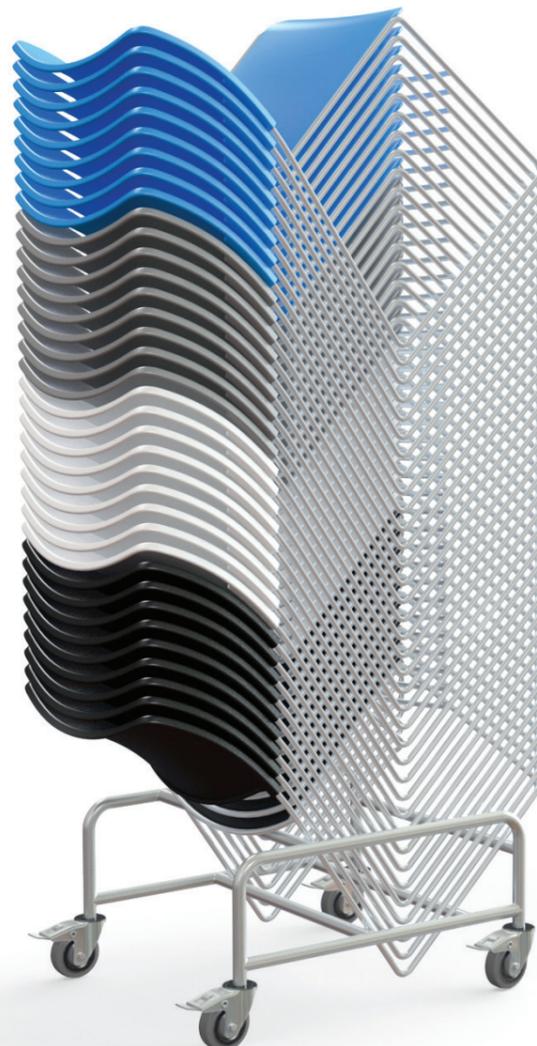

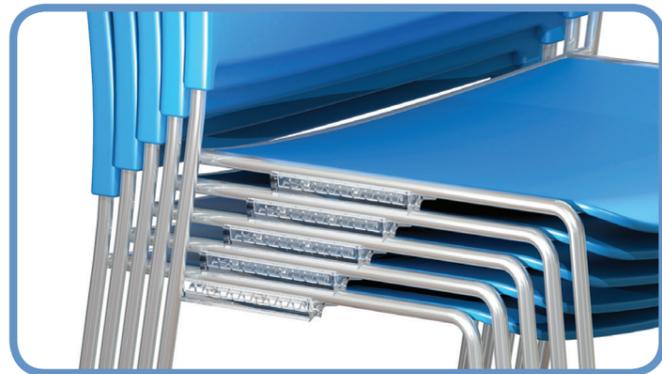

The **TiDE** chair comes with a 5 year material and workmanship warranty as standard.

## STACKING & LINKING

A clear polycarbonate stacking block allows for functional stacking up to 40 chairs high, providing a 2m height when stacked on a trolley to full capacity.

Each chair comes complete with 4 linking clips to the bottom part of the chrome frame to provide uniformity when arranging multiple chairs in conference / meeting environments.

**TiDE** Attractive and durable stacking chair that connects seamlessly with a wide range of office applications.
